

CRYSTAL DROP Aqua Filtras

Savybės:

- „Crystal Drop Aqua“ savo kokybe nenusileidžia analogiškiems vandens filtrams.
- Naujasis filtras yra lengvai ir patogiai įstatomas į automatinio kavos aparato vandens talpą.
- Filtras tinkamas naudoti ne ilgiau kaip 2 mėnesius, arba tol kol prafiltruoja 50 litrų vandens.
- Pagaminta Italijoje.

Privalumai:

- akimirksniu filtruoja vandenį, skirtą jūsų gaminamam kavos puodeliui;
- naikina pašalinius vandens skonio ir kvapų elementus;
- šalina kalkių nuosėdas, kurios ypač kenksmingos kavos aparatui
