

LA SOMMELIERE LSBU51X1 Vyno šaldytuvas

The LSBU51X1 wine cellar lets you condition up to 46 bottles of wine. The double-zone feature also means you can set both storage compartments to different temperatures. You can regulate temperatures within the following ranges:

- Top section (16 bottles): 5°C to 10°C;
- Bottom section (30 bottles): 10°C to 20°C.

The LSBU51X1 wine cellar is stylish with its anti-UV glass door. Réversible, it adapts to your needs and constraints in terms of use.

Bottles can be accessed easily using the 5 semi-sliding shelves: extremely convenient for your waiting and sommelier staff.

All La Sommelière multi-zone cellars feature adjustable feet and front aeration system to fit seamlessly into your kitchen configuration. Designed for under-counter installation, the LSBU51X1 is also free standing. It boasts an array of other features, such as (the list is non-exhaustive):

- Electronic thermostat with digital temperature display;
- Excellent cold air distribution;
- Anti-vibration system;
- Humidity regulated between 50% and 80%.
